Clear North UNIFIED THREAT MANAGEMENT (UTM)

Others have a firewall. We have a fire fortress.

New threats emerge daily and are often unpredictable, which is why Clear North UTM is the ultimate security solution. Delivering the highest protection possible from both external and internal threats, our managed UTM provides ultimate scalability and performance for growing networks. Why have traditional firewalls when you can have a multi-layer security fortress? We manage your security like it's our own so you can focus on what you do best— running your business.

What is Clear North UTM?

This service includes monthly reporting, ongoing upgrades to the UTM system, ongoing event enhancement and configuration, and report maintenance. Our security appliances integrate firewall, gateway anti-virus, anti-spyware, content filtering and intrusion prevention to deliver intelligent, real-time network security protection.

BENEFITS:

- Decrease risk to critical systems
- Predictable costs for budgeting
- Certified experts in all aspects of IT security
- Proven, documented escalation procedures
- High performance deep packet inspection
- We do the configuration, monitoring and maintenance
- Hardware replacement in case of failure
- Knowledgeable configuration of the device from the start
- Less worry about licensing and maintenance
- Free updates and upgrades
